

Forquer Contracting, established in 1984, is located in Core, West Virginia and serves the Morgantown region (as well as Ohio, Pennsylvania and other states throughout the region). We are capable of a spectrum of services, from full-service erosion and sediment control, hydroseeding, standard seeding/mulching, mass excavation, pond and road building/cleaning/dredging, trucking services and more! We can construct any well site, from small to large. We're on the job 24/7/365 and can accommodate any jobsite.
